

Pelican Bay Foundation, Inc.

Re: Design Review and Approval Program – Minor Exterior Projects

Dear Member:

The Pelican Bay Foundation, along with your Homeowner's Association is responsible for architectural controls for the Community. In order to maintain the high standards governing this Community, it is important to be aware of the Design Approval Process.

In accordance with the Design Approval Process, you must obtain both your Homeowner's Association approval and the Foundation's approval for any and all exterior alterations before any work may begin. This process allows for continuity within your Association. If you have any questions as to what constitutes an exterior alteration, please review your Association's Covenant documents, check with your Association President, or feel free to call the Covenant Enforcement Office at the Foundation for clarification.

Attached is the Pelican Bay Foundation Design and Review Application for "Minor Exterior Projects". Please complete and return this Application along with a description of the work to be done along with all specifications, colors, materials, locations, duration, etc., to the Foundation Covenants Department Office in order to begin the Design Review Process. Please anticipate your project by submitting for approval at least fifteen (15) days prior to your anticipated project start date. Again, no work may be commenced until written approval from your Homeowner's Association and the Foundation has been granted.

If your project is anticipated to take longer than fifteen (15) days to complete it may be considered a "Major Exterior Project" and will be subject to different application process and specifications. Please be sure to review each of the Project types to determine which corresponds to your project, or call the Covenant Enforcement Office at the Foundation for clarification

For all contractors working on your project, we recommend sharing a copy of the Foundation's Construction Guidelines prior to the project's commencement so they are aware of the requirements for working within Pelican Bay. The Construction Guidelines are available in the Covenant Enforcement Office or on our website at www.pelicanbay.org.

If you have any questions concerning this application or the Design Review Process, please do not hesitate to call the Covenants Department at 239-596-6180, ext. 237.

With Kind Regards,

Frank J. Laney
Covenants Manager
